

Project report Template

1 Introduction

1.1 Overview

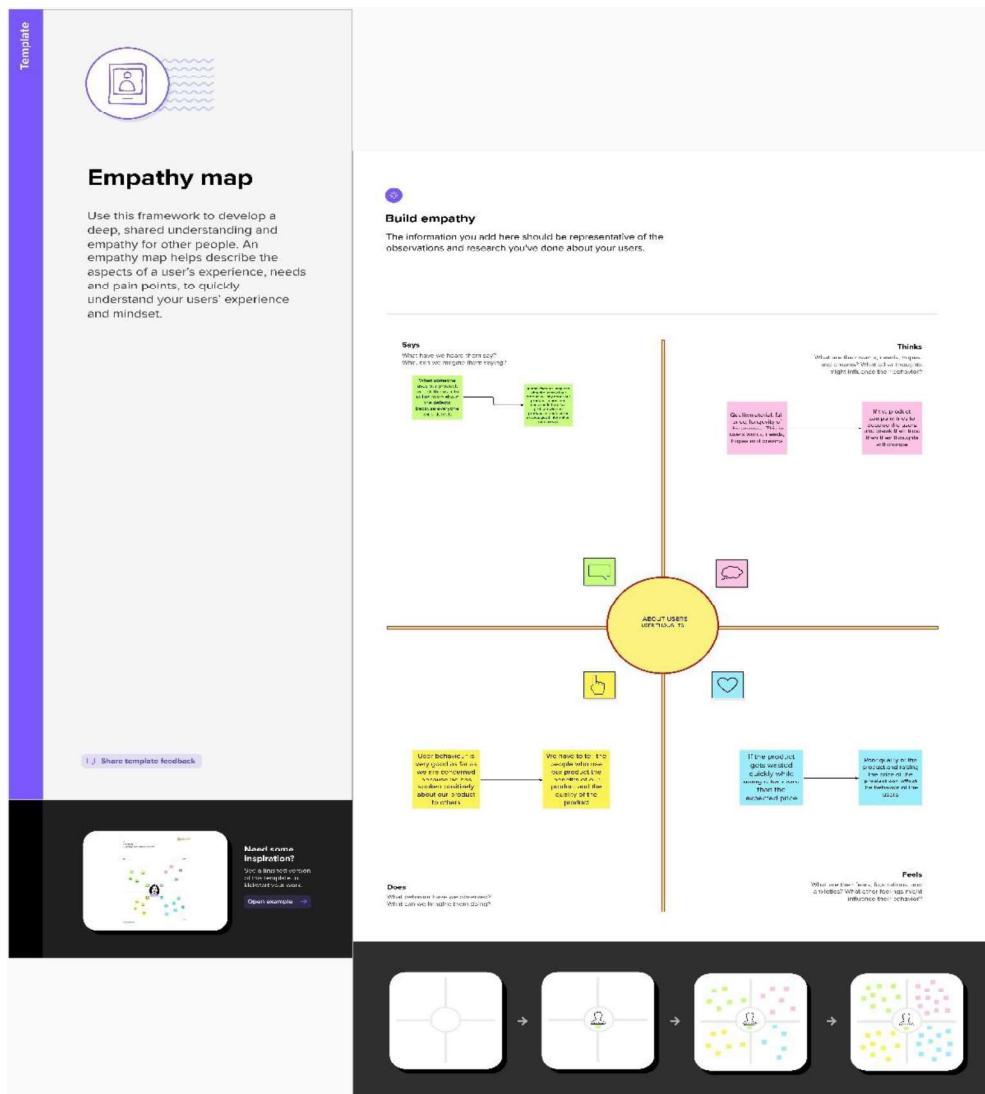

The Creating Salesforce Developer Org is the first step of Project activity and Create username and password is mainly to enter salesforce.com. Event management we need to create 4 objects it's Events, Attendees, Speakers and Vendors. All the milestones are made based on this four objects. Totally 8 milestones are given create salesforce developer account, Object, Tab, Application, Fields, Profile, User, Permission sets, Reports also. Each milestone or each activity is related to other milestones. Salesforce objects are database tables that permit you to store data that is specific to an organization. It consists of fields (columns) and records (rows). Tab in salesforce help users view the information at a glance. It displays the data of objects and other web content in the application. Apps in salesforce are a group of tabs that help the application function by working together as a unit. It has a name, a logo, and a particular set of tabs. Fields in salesforce represents what the columns represent in relational databases. It can store data values which are required for a particular object in a record. A Profile is a group/collection of setting and permissions that define what a user can do in salesforce. A profile contains Object permissions, Field permissions, User permissions, Tab setting also. A user is anyone who logs in to salesforce. Users are employees at your company, such as salesreps, managers and IT specialists who need access to the company's records. A permission set is a collection of setting and permissions that give users access to various tools and functions. permission sets extend users' functional access without changing their profiles. Fields and relationship is used to create reports. Reports in salesforce is a list of records that meet a particular criterion which gives an answer to a particular question. These records are displayed as a table that can be filtered or grouped based on any field.

1.2 Purpose

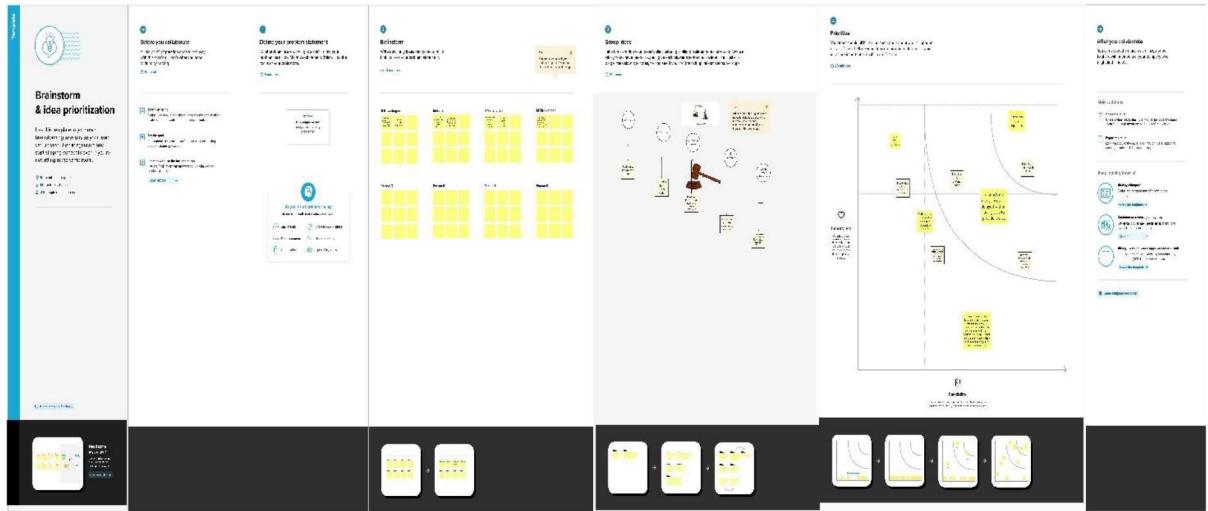

Build An Event Management System Using Salesforce is a Business related project. It is used to develop our industry related customer capability. It's Some of these are hard and some are easy. In this you can know the details about each project to be done. I think it's helpful for at the time of joining the job in any IT field.

5 ADVANTAGES & DISADVANTAGE

Advantages,

- Best Event Planning
- End to end execution
- Improve customer services and satisfaction
- Smooth execution of planned ideas
- Saves time and money
- Maintain best account history

- Easy to manage

Disadvantages,

- Sponsor may request changes in rules, equipment, Start times etc.
- These are not always suitable to the performers.
- No Control over sequencing of invocations
- Function call semantics problematic.
- Cycles may be problematic.
- Indirection may incur overhead

Solutions,

- Promote your events online with a mini website
- Offer flexible pricing to meet your members' needs
- Send e-mail messages to target audiences
- Update and maintain your events
- Enable members to register online and pay by credit card

6 APPLICATIONS

- Multi-track, multi-session registration capability
- Automatic wait listing
- Assign function availability based on registrant types
- Included and prerequisite items
- Flexible pricing: early and late registrant pricing, quantity pricing, cancellation fees
- Sell optional products and services online or on-site

7 CONCLUSION

Event management is the application of project management to the creation and development of festivals, events and conferences. Event management involves studying the intricacies of the brand, identifying the target audience, devising the event concept, Event management project is events, speakers, attendees, vendors it's all inclusive so that everyone can come together.

8 FUTURE SCOPE

The project will consist of 3 parts, Admin (organizer), Teacher (Faculty Mentor), User (student). As discussed before the organizer will add a particular event, along with the teachers or organizers who will conduct the event and will also provide complete details and schedule for that event. The teachers or organizers will list the names of participants and in case of competition based events, the teachers or organizers will also be notified about an upcoming event once it is added. All the information regarding a particular event, including the participants are attendees will be saved in a database.
